

## Community Program

### To the people

part of the program will give food and clothing to those who which can not afford it. For example food, clothes, and shoes to kids and the homeless who can't afford it. This program will be set in every walmart and grocery store in the county area for everyone to donate to their community, look for the red bins that are labeled for the people.

### No more trash

This will be for the rivers, streets, highways, sidewalks, and ditches. So if we get separate groups of people together as a community then one day at a time we can change the trash waste.
